

AWARDS

Job Description:

Competitors pick up their completed test and any ribbons or awards at the awards table. This volunteer is responsible for filing test as they are delivered from the scorers, ensuring that competitors or their representatives initial for their test, and assisting the scorers with posting the results.

Job Requirements:

You do not need to be a “horse-person” to do this job. You do need to be organized, patient, and tactful.

What to Expect:

You will be working in the office- great for staying dry, but pretty far from the action. Be prepared to answer the questions “why isn’t my test here yet?”, “when will the tests be here?” and “when/where will the scores be posted?” frequently. Competitors, volunteers, and visitors will assume that you know everything about the show- you’re not expected to, but you will need to be prepared to direct these questions to the appropriate place – most likely the secretary, who will be right next to you in the office.
