

Cones Scribe and Timer may be the same person!

Cones Scribe Instructions

The Cones Scribe/Radio has 4 tasks (and no opinions):

1. At the Judge's command, record ball down in the correct scoresheet box. Radio: "Ball (number) down." If it is an element of a multipart obstacle say "Ball (number/letter) down" to the cones setters.
2. At the Judge's command, record time taken.
3. At the Judge's command - record course penalties, time penalties and total score as given by the Judge.
4. At the end of the class, get the Judge to sign the scoresheet.

Note: If radio is required, it sets the speed of the show. Call as quickly as possible. Speak clearly and quickly using as few words as possible.

Cones Timer Instructions

1. If there is an electric timer, be sure it is "cleared and set" or sure your stopwatch is cleared when a competitor enters the ring.
2. If the Judge sounds the whistle/bell & a Judge is with you
 - Stop your watch and the electronic timer (if it has that function) when you hear the signal
 - If the signal was for "Off Course" the Competitor is eliminated and will leave the ring. Record the Competitor # and put "E" for the time on your backup sheet.
 - If the signal was for an equipment repair or an obstacle rebuild, start your watch/electronic timer when the Judge tells you to
3. Stop your watch/timer when the horse's nose crosses the finish line (first horse if a pair or four).
 - Report your time, the full Minutes, Seconds, 1/100 Seconds to the Judge
 - Record the Competitor #, Brief Description and Time Taken on the Cones Timer Backup Sheet.
