Greetings to our GMHA Community,

The following updates have been mulled over to a great extent. We are responding to the latest extension of the Vermont Stay At Home order through May 15th, and the restrictions on reserving lodging now extended through June 15th. While we are able to accommodate competitor’s horses, we are not able to provide lodging for owners, riders, trainers, or officials.

GMHA functions at maximum capacity May through October. This year, the shortened season caused us to make decisions that are sure to cause disappointment within the community. All events through May and June have been altered including cancellation of our historic Junior Horsemanship Clinic. These decisions were not made lightly as the joy and enthusiasm of our competitors, campers, instructors, barn managers, and officials are a big part of what makes GMHA special. While we joked that the campers were “everywhere” on the grounds, it was that being everywhere that made the camp fun. We took into account the inability of GMHA and staff to safely implement on-going human contact restrictions. We understand the disappointment felt by JHC’s campers and the competitors, but the safety of our community is the greatest factor of any decision we make. These changes will show up shortly on GMHA’s website.
