Greetings to our GMHA Community,

We have been working diligently to adjust our competition schedule for the 2020 season based on the forecasted travel and gathering restrictions. We have decided to air on the side of caution. Our early and mid-May competitions are not going to be held on the original scheduled dates. Some events we have been able to move to a later date in the summer with hopes that we will have fewer restrictions on travel and gatherings.

As you are well aware, GMHA has a very busy summer schedule with its five disciplines, clinics and Members Days. Each schedule change has been thought through and discussed between Managers, and the Board. Some of these changes require two competitions to share the facility and grounds. We expect symbiosis between riders, and hope everyone can use the opportunity to expand their knowledge of the larger equestrian community.
